15+ years building and shipping production software — Laravel, Python, APIs, and full-stack products, backed by Docker, Kubernetes, CI/CD, and cloud infrastructure.

Executive summary

Senior software developer and full-stack engineer with 15+ years building production web, mobile, and business platforms in Laravel, Python/FastAPI, PHP, Vue.js, and Angular. I ship complete products — APIs, backends, and frontends — and extend that with strong DevOps capability: CI/CD, Docker, Kubernetes, Linux/Nginx, and database operations. A developer first who also owns infrastructure, releases, and production reliability across e-commerce, ERP, SaaS, and mobile backends in Pakistan and the GCC.

Expertise Areas

Software Development

Laravel · Python / FastAPI · PHP · Vue.js · Angular · Flutter · REST APIs

Databases & Data

MySQL · PostgreSQL · MongoDB · Redis · Query tuning · Backup & recovery

Platform & DevOps

CI/CD pipelines · Docker · Kubernetes · GitHub Actions · Release automation · Production reliability

Cloud & Infrastructure

Linux administration · Nginx · SSL/TLS · DNS · Monitoring · Incident response

Leadership & Delivery

Team leadership · Architecture · Stakeholder alignment · Vendor coordination

Business Platforms

ERP · E-commerce · SaaS · POS · Payroll · Mobile backends

Professional experience

- 01 Senior Team Lead — Engineering, Development & DevOps

Full-time

 Streamed Inc.  Islamabad · Remote  Sep 2023 – Present

Lead full-stack engineering for web, ERP, e-commerce, and mobile products — hands-on with Laravel, Angular, APIs, and architecture. Also own CI/CD, containerized deployments, cloud infrastructure, and production reliability.

- Lead development teams across Laravel and Angular while staying hands-on with code reviews, APIs, and releases.
 - Design and maintain CI/CD pipelines, Docker-based deployments, and production Nginx/Linux environments.
 - Drive incident response, monitoring, and stakeholder communication for business-critical go-lives.
- 02 IT Manager

Full-time

 Habib Rafiq Pvt Ltd  Islamabad · On-site  Feb 2018 – Feb 2023

Directed enterprise IT and infrastructure for a large construction group — production servers, ERP systems, internal portals, security, database operations, and application lifecycle from development through deployment.

- Owned on-premise and cloud-hosted infrastructure, SSL/DNS, backups, and production server administration.
 - Built and operated ERP, portals, and business platforms with dedicated release and support processes.
 - Established engineering standards, vendor coordination, and security posture across critical systems.
- 03 Senior Software Engineer

Full-time

 Xorlogics  Islamabad  Sep 2012 – Mar 2018

Developed production-grade web platforms with Laravel, AngularJS, and PHP frameworks. Delivered payment gateways, APIs, and Agile product releases for commercial clients.

- Shipped payment-gateway and API-backed products used in live business operations.
 - Practised Agile delivery with Git, Jira, and code review across multi-year engagements.
 - Progressed from hands-on development to solution design and technical ownership.

04 Software Developer

Full-time

Horizon Medical World Islamabad Nov 2011 – Oct 2012

- Built CakePHP MVC applications with AJAX interfaces for medical and operational workflows.
- Delivered maintainable MVC web applications for a healthcare product environment.
 - Collaborated on database-backed features and user-facing operational tools.

05 Senior Software Engineer

Full-time

Evision Soft Islamabad Nov 2011 – Sep 2012

- Developed custom PHP and WordPress CMS solutions for business clients — from requirements through go-live.
- Built client-facing CMS and business websites with structured delivery processes.
 - Handled implementation, content integration, and production handover.

Selected projects

Goodiset

Live

E-commerce · GCCgoodiset.com/

Major e-commerce platform for the UAE and GCC — Laravel backend/API development, architecture, deployment, and production support for a high-traffic retail operation.

LaravelAPIsE-commerceDevOps

MyQR.Digital

In progress

Digital platformmyqr.digital/

QR and digital identity platform — product architecture, full-stack development, API services, and cloud infrastructure in active delivery.
